

HANEEN KHALID GHALIB

PROJECT 4

Insight 1

<https://public.tableau.com/profile/haneen.ghalib#!/vizhome/ChildPovertyInState/Sheet1?publish=yes>

from this map, we can see where the most child Poverty, it appears that most child poverty average in Puerto Rico (60.21).

And Connecticut had less average (12.20).

Insight 2

<https://public.tableau.com/profile/haneen.ghalib#!/vizhome/worktype/Dashboard1?publish=yes>

From this Dashboard I used two Treemaps, we can see the Average of type work in every state, we can choose any states we want to compare it together. from choosing all state, we can see Texas had the most Private Work.

Insight 3

https://public.tableau.com/profile/haneen.ghalib#!/vizhome/transportation_5/Sheet3?publish=yes

From this horizontal bar, we can see the most Transportation Used in United States, the best transportation is Drive all of states, and in Alabama is most used transportation average (84,76 Drive) (10,19 Carpool), instead of District of Columbia is the Lowest Use of transportation.
